

**Amendments to the Title, Specification and Abstract:**

**In the Title:**

Rewrite the title of the present application as follows:

METHOD AND ~~DEVICE~~ SYSTEM FOR IDENTIFYING A DEFECT OR  
FAILURE OF A COMPRESSED AIR LOAD CIRCUIT IN AN ELECTRONIC  
COMPRESSED AIR INSTALLATION FOR VEHICLES

**In the Specification:**

Replace the specification, other than the claims, with the attached substitute specification marked to show changes made relative to the original specification (i.e., the English translation of International Application PCT/EP2004/007648 filed with the PTO on January 25, 2006). The substitute specification includes no new matter (37 CFR 1.125(b)). A clean version (without markings) of the substitute specification is also attached (37 CFR 1.125(c)).
